Key Findings

- Total sales reached **\$1.57M** across **5,901 transactions** and **22K units**, with **\$175.26K** in profit — an overall profit margin sits under 12%, worth calling out as thin.
- **West region** leads at ~\$505K, roughly double the lowest-performing **South region** (~\$258K) — signals either a regional growth opportunity or overconcentration risk.
- Several **Furniture/Bookcase** show **negative profit margins** (down to -243%) despite steady unit sales — these are actively losing money, not just underperforming.
- **89% of customers are repeat buyers** — strong retention despite probability gaps, the problem is profitability per sale, not customer loyalty.
- **Binders and Paper** dominate unit volume but **Copiers and Accessories** generate the most profit.(volume ≠ profit).
